

PROGRAMME

Convened by [Eval4Action](#) advocacy campaign, its regional partners and the EvalYouth Global Network, the 5-day Youth in Evaluation week is an inclusive and intergenerational gathering of young and emerging evaluators (YEEs) and the global evaluation community, focusing on advancing the meaningful engagement of youth in evaluation.

The Youth in Evaluation week is aligned with the United Nations Secretary-General's [Our Common Agenda](#) report, which, among several actions, lays down a vision for 'listening to and working with youth'. Applying this vision to the evaluation field, the Youth in Evaluation week will create dialogue and awareness around strengthening intergenerational solidarity with YEEs – focusing on 'voice', 'learning', 'prosperity', the key priorities identified by youth in Our Common Agenda.

Further information and registration details for all sessions will be available in March 2023 [here](#).
